Leadership Skills both in Humans and Animals

Animals lead their groups

- Influencing
- Showing examples
- Guiding and constantly communicating with their followers.

For example

- Making migratory or movement decisions depends on social interactions among their own group members

Leadership involves using the head, the heart and the hands.

The **Paper Objectives** are:

to indicate and draw parallels, and highlight the leadership lessons and its applications from nature with special reference to the animal kingdom, and where necessary, such an interpretation is seen from the Chinese perspective.
